Dear colleague,

I am glad to announce the opening of a new group in the department of applied mathematics, Bar-Ilan University. The group, led by Baruch Barzel, will focus on the **dynamics of complex networks**. We will work in close collaboration with leading researchers in Israel and in the US, in particular the Hebrew University, Weizmann Institute of Science, and Harvard and Northeastern Universities.

Please visit us at: [http://barabasilab.neu.edu/people/baruch/](http://barabasilab.neu.edu/people/baruch/)

**We are currently recruiting outstanding graduate students and post-docs.** For inquiries, please send your curriculum vitae (post-docs: and a brief research statement) to

Dr. Baruch Barzel – baruchbarzel@gmail.com.

All applications will be answered. Suitable candidates will be required to submit recommendation letters.

**A bit on Bar-Ilan:**
It is the **fastest growing** university in Israel, especially in Exact Sciences.
The University is a **world leader** in the the field of complex systems and network science, home to several world renowned researchers: Profs. Shlomo Havlin, Reuven Cohen, Moshe Bar and Yoran Louzoun just to name a few.
