

Curriculum Vitae

Yehuda Lindell

January 18, 2012

Contact Information

Address: Department of Computer Science
Bar-Ilan University
Ramat Gan, 52900, ISRAEL.

Telephone: +972-3-531 8448

Fax: +972-3-738 4193

Email: [lindell\(at\)biu.ac.il](mailto:lindell(at)biu.ac.il)

Home Page: <http://www.cs.biu.ac.il/~lindell/>

Current Position

Associate professor in the Department of Computer Science, Bar-Ilan University, Israel.

Research Interests

My main research interests are in the field of *cryptography*, with a focus on *secure protocols*. My research concentrates both on questions of *feasibility* and *efficiency*. The former question asks what cryptographic tasks can be realized and under what assumptions, and is related to the theoretical foundations of cryptography. The focus of the latter question is the construction of efficient cryptographic schemes and protocols that have rigorous proofs of security and correctness. This research includes the development of new models and definitions for secure computation that enable the construction of highly efficient protocols. A primary aim of my research in this area is to demonstrate that secure computation has potential for real-world use, and many real-world problems can already be solved today. In many cases, there is still a long way to go in order to obtain protocols that are efficient enough to be used in practice. In these cases, I am interested in the algorithmic process of finding more and more efficient protocols.

Education

9/1998 – 8/2002: *The Weizmann Institute of Science* (Rehovot, Israel).
Ph.D. in Computer Science
Field of Research: Cryptography
Thesis: *On the Composition of Secure Multi-Party Protocols*.
Advisors: Oded Goldreich and Moni Naor

9/1997 – 8/1998: *Bar-Ilan University* (Ramat Gan, Israel).
M.Sc. in Computer Science, Summa cum Laude
Field of Research: Data Mining
Thesis: *A Statistical Theory for Quantitative Association Rules*.
Advisor: Yonatan Aumann

9/1994 – 8/1997: *Bar-Ilan University* (Ramat Gan, Israel).
B.Sc. in Computer Science and Mathematics
Summa cum Laude

Employment History

03/2008 – *present* Associate professor, Bar-Ilan University, Ramat Gan, Israel.
10/2004 – 02/2008 Senior Lecturer (a.k.a. assistant professor),
Bar-Ilan University, Ramat Gan, Israel.
11/2004 – *present* Cryptography Consultant, Safenet Inc. (previously, Aladdin), Israel.
09/2002 – 07/2004 Post-Doctoral Researcher at the Cryptography Research Group,
IBM T.J.Watson Research, New York, USA.

Awards

- *IBM 2006 Pat Goldberg Memorial Best Paper Award in Computer Science, Electrical Engineering and Math*, for the paper *On the Composition of Authenticated Byzantine Agreement* (co-authored with Anna Lysyanskaya and Tal Rabin).
- *IBM Josef Raviv Memorial Postdoctoral Fellowship*, 2002–2004.
- *The Esther Helinger Memorial Ph.D. Distinction Prize*, The Weizmann Institute of Science, 2002.
- *Award for Excellence from the Council of Higher Education, Israel*, 1999-2000, 2000-01 and 2001-02.
- *Dean's Undergraduate List of Excellence*, 1994-95, 1995-96 and 1996-97, Department of Mathematics and Computer Science, Bar-Ilan University, Ramat Gan, Israel.

Research Grants

(The amounts listed reflect my portion of the award only.)

- *Revisiting Fundamentals of Secure Computation*, Israel Science Foundation (ISF), 748,800 NIS (approximately \$215,000). Principal investigator, *October 2011 – September 2015*.
- *Large Scale Privacy-Preserving Technology in the Digital World*, European Research Council (ERC) Starting Grant, €1,912,316 (approximately \$2,677,000). Principal investigator (personal grant), *October 2009 – September 2014*.
- *Secure Computation - Bridging the Gap Between Theory and Practice*, Israel Science Foundation (ISF), 584,000 NIS (approximately \$146,000). Principal investigator, *October 2007 – September 2011*.

- Privacy-Preserving Data Mining, Israel Ministry of Science and Technology Infrastructure Grant, 254,700 NIS (approximately \$64,000). Principal investigator and project coordinator, *December 2005 – November 2008*.
- Feasibility and Efficiency of Secure Computation, United States-Israel Binational Science Foundation (BSF), \$60,000. Principal investigator, *September 2005 – August 2009*

Books

1. C. Hazay and Y. Lindell. *Efficient Secure Two-Party Protocols: Techniques and Constructions*. Springer, November 2010.
2. J. Katz and Y. Lindell. *Introduction to Modern Cryptography*. CRC Press, 2007.
3. Y. Lindell. *Composition of Secure Multi-Party Protocols – A Comprehensive Study*. Lecture Notes in Computer Science Vol. 2815 (LNCS Monograph), Springer, September 2003.

Book Chapters (Invited)

1. G. Asharov and Y. Lindell. The BGW Protocol for Perfectly-Secure Multiparty Computation. *Secure Multiparty Computation*, M. Prabhakaran and A. Sahai (Ed.), Cryptology and Information Security Series, IOS Press, 2012.
2. Y. Lindell. Secure Computation for Privacy Preserving Data Mining. In the *Encyclopedia of Data Warehousing and Mining*, J. Wang (Ed.), Idea Group Reference, 2005.

Journal Publications

1. S.D. Gordon, C. Hazay, J. Katz and Y. Lindell. Complete Fairness in Secure Two-Party Computation. To appear in the *Journal of the ACM*.
2. Y. Lindell and B. Pinkas. Secure Two-Party Computation via Cut-and-Choose Oblivious Transfer. To appear in the *Journal of Cryptology*.

Graduate Students

Graduated:

- **Ph.D. students:**

1. Carmit Hazay. *Efficient Two-Party Computation with Simulation-Based Security*. **Ph.D.**, February 2009.

- **M.Sc. students:**

1. Eli Oxman. *Efficient Secure Multiparty Computation*. **M.Sc.**, September 2011.
2. Gilad Asharov. *Utility Dependence in Correct and Fair Rational Secret Sharing*. **M.Sc.**, June 2009.
3. Hila Zarosim. *Adaptive Zero-Knowledge Proofs and Adaptively Secure Oblivious Transfer*. **M.Sc.**, October 2008.
4. Dafna Kidron. *Generalized Impossibility Results for Universal Composability: Public-Key Models, Reactive Functionalities and Fixed Inputs*. **M.Sc.**, June 2007.

Current:

1. Hila Zarosim. **Ph.D.**, expected to graduate September 2013.
2. Gilad Asharov. **Ph.D.**, expected to graduate September 2013.
3. Ran Cohen. **Ph.D.**, expected to graduate September 2015.
4. Tali Oberman **M.Sc.**, expected to graduate September 2012.

PostDocs

Current:

1. Claudio Orlandi. **Postdoc**, 2011–
2. Eran Omri. **PostDoc**, 2009–.

Professional Activities

Program Committee Membership:

1. The 31st Annual Eurocrypt Conference (EUROCRYPT), 2012
2. The 14th Intl. Conf. on Practice and Theory in Public Key Cryptography (PKC), 2011
3. The 30th Annual International Cryptology Conference (CRYPTO), 2010
4. The 28th Annual International Cryptology Conference (CRYPTO), 2008
5. International Conference on Applied Cryptography and Network Security (ACNS), 2008
6. The 5th Theory of Cryptography Conference (TCC), 2008
7. The 26th Annual International Cryptology Conference (CRYPTO), 2006
8. The 3rd Theory of Cryptography Conference (TCC), 2006
9. The 25th Annual International Cryptology Conference (CRYPTO), 2005
10. The 23rd Annual Eurocrypt Conference (EUROCRYPT), 2004

Workshop Organization:

1. 2nd Bar-Ilan Winter School on Cryptography – *Lattice-Based Cryptography and Applications*, Bar-Ilan University, February 2012. (Approximately 140 participants, 90 from abroad.)
2. Winter School on *Secure Computation and Efficiency*, Bar-Ilan University, January 2011. (Approximately 70 participants, 40 from abroad.)
3. Interdisciplinary Workshop on *Privacy – Cryptographic and Public Administration Perspectives*. Bar-Ilan University, April 2007.

Invited Talks

1. Advanced Cryptographic Techniques for Cloud Security, Workshop on *Cloud Security*, the National Information Security Authority of the Israeli Security Agency, February 2011.
2. Techniques for Efficient Secure Two-Party Computation with Malicious Adversaries, Check Point Institute *Crypto and Security Day*, Tel-Aviv University, Israel. October 2010.
3. Rational Secret Sharing: Constructions and Limitations, Workshop on the *Economics of Computer Security*, the National Information Security Authority of the Israeli Security Agency, October 2009.
4. Private Data Mining and Citizens' Rights. *CSI SX 2008*, Las Vegas, USA. April 2008.
5. Tutorial on Multiparty Computation and Privacy-Preserving Data Mining. DIMACS Workshop on *Data Privacy*, New Jersey, USA. February 2008.

6. Lecturer at ECRYPT School on Zero-Knowledge, Bertinoro, Italy. October 2006.
7. Information-Theoretically Secure Protocols and Security Under Composition. ECRYPT Workshop on *Models for Cryptographic Protocols*, Aarhus, Denmark. July 2006.
8. Secure Multiparty Computation and Privacy. *Privacy Day*, The Weizmann Institute of Science, Israel. July 2006.
9. Survey on the Secure Composition of Multiparty Protocols. Workshop on *Mathematical Problems and Techniques in Cryptology*, Centre de Recerca Matemàtica, Barcelona, Spain. June 2005.
10. Tutorial on the Secure Composition of Multiparty Protocols. DIMACS Workshop on *Security Analysis of Protocols*, New Jersey, USA. June 2004.
11. Tutorial on Secure Multiparty Computation. Workshop on *Privacy-Preserving Data Mining*, in conjunction with the *3rd IEEE International Conference on Data Mining (ICDM)*, Florida, USA. November 2003.
